Demographic and Health Surveys (DHS) are a series of standardized surveys that provide information on a wide range of demographic and health indicators. These surveys are conducted in many developing countries and provide valuable data for researchers and policymakers. The DHS program is a multi-country survey that provides data on a wide range of demographic and health indicators. The data is used to monitor and evaluate the progress of development and to identify areas for improvement. The DHS program is a multi-country survey that provides data on a wide range of demographic and health indicators.
