4.b. Comment and limitations

CDHS (Center for Disease Control and Health Statistics) is a leading organization in the field of public health and disease prevention. It provides a wide range of services, including research, surveillance, and health promotion. The organization is committed to improving the health and well-being of the community through its various programs and initiatives.

[illegible]

Demographic and Health Surveys (DHS) are a series of population and household surveys that provide information on a wide range of demographic and health indicators. These surveys are conducted in a standardized manner across different countries and regions, allowing for comparisons and analysis of trends over time and across different populations. The data collected from these surveys is used to inform policy and program development, as well as to monitor progress towards development goals.
